WORDING OF AGENDA ITEM	Consideration and action concerning Resolution No. 05-26-2015A - a Resolution concerning Kendall County continuing to provide some services to the Comfort area in the event an election is held concerning the incorporation of the Comfort area and the voters approve incorporation
REASON FOR AGENDA ITEM	A petition seeking an election to incorporate the area of Comfort is being circulated. The petition must be submitted to the County Judge, and if it satisfies statutory requirements, the Judge must call an election on the issue of incorporation. Kendall County currently provides services to the area of Comfort within Kendall County, in particular, maintenance of county roads and bridges and law enforcement. If the area incorporates, the municipality will be responsible for provision of such services. Those citizens supporting incorporation are asking the Commissioners Court to continue provision of some services to the area in the event of incorporation to allow the resulting municipality time to get organized and financially able to provide all services currently provided by Kendall County.

**KENDALL COUNTY RESOLUTION NO. 05-26-2015A
RESOLUTION CONCERNING THE PROPOSED INCORPORATION OF COMFORT**

WHEREAS, residents of the Comfort area have initiated an attempt to incorporate pursuant to Chapter 7, Texas Local Government Code; and

WHEREAS, the majority of the area of Comfort is located in the unincorporated area of Kendall County with a smaller area of Comfort located in the unincorporated area of Kerr County; and

WHEREAS, Kendall County is responsible for providing services to the area of Comfort located in Kendall County, and if the area does not incorporate, the County will continue to be responsible for providing such services; and

WHEREAS, as an incorporated municipality, Comfort would have the responsibility for provision of services to the area within the municipal limits, thereby relieving Kendall County of such responsibility; and

WHEREAS, if the decision is made by the voters to incorporate the area of Comfort, there is no additional financial burden for Kendall County to continue providing some services to the area within the corporate limits until such time as the resulting municipality is able to assume responsibility for providing services.

NOW, THEREFORE, the following **RESOLUTION** is adopted concerning the proposed incorporation of Comfort:

RESOLVED, that in the event the voters within the area proposed to be incorporated as the municipality of Comfort vote favorably for incorporation, Kendall County will, to the extent allowed by the Constitution and laws of the State of Texas, continue to provide all current services to Comfort for the next seven years, and during the eighth year the County will pass the expense of road, bridge and drainage maintenance to the municipality of Comfort, and during the ninth year the County will pass the expense of law enforcement to the municipality of Comfort. The details of the support provided to the municipality of Comfort by Kendall County will be set out in interlocal agreements to be negotiated between the two entities and submitted to the Commissioners Court for approval each year during the County budget process.

APPROVED this the 26th day of May 2015.

IS THERE DOCUMENTATION	Yes
WHO WILL THIS AFFECT?	Elected Officials, Government Administration, Auditors, Treasurers, Public Works, Fire, EMS, Law Enforcement and any department that responds or participates in a Disaster.
ADDITIONAL INFORMATION	This is a free training course offered by the Texas Division of Emergency Management for Cities and Couties in Texas. The course is taught over a three month period. One eight hour class, once a month, for three consecutive months.

Regional Disaster Finance Coordination Program

As emergency managers in the state of Texas, we tend to concentrate on mitigating, preparing and responding to emergencies from an operational perspective. Seldom do we do the same for the fiscal side of emergency management, with areas such as recovery often being an afterthought. With today's economy, fiscal responsibility needs to be considered at the beginning of the emergency, not at the end. Finance is part of all four areas of emergency management (mitigation, planning, response and recovery) and we should be concerned with much more than just how to respond to an emergency.

PURPOSE: On May 7, 2014, the Office of the Governor authorized a grant to help implement the Regional Disaster Finance Coordination Program. The Regional Disaster Finance Coordination Program is a new, innovative, proactive pilot program designed to give local jurisdictions the financial tools needed to help recover from a disaster before a disaster occurs, as well as facilitate collaboration and communication between disaster responders and financial managers prior to an emergency occurring. Embedded within the Field Response Section, this program is overseen by a state coordinator and will employ eight finance coordinators stationed throughout the state:

- One each for DPS Regions 1, 3, 4, 5, and 6
- Two for DPS Region 2
- One at headquarters to assist with state agencies

FOCUS: Program efforts will focus on accounting practices of individual finance departments, cataloguing current budget capabilities and ensuring compliance with federal rules to improve financial standard operating procedures and systems used during a disaster.

This focus is aligned with interim changes for the 83rd Legislature for the Texas House of Representatives Committee on Homeland Security and Public Safety and the Committee on County Affairs to assess and improve the level of preparedness and to coordinate with local emergency response to ensure economic stability.

NEXT STEPS: Over the next 12 months, the finance coordinators will conduct courses, workshops and meetings with executive staff and finance personnel throughout all 254 counties in Texas to promote financial responsibility and equip the jurisdictions with the tools necessary to track, calculate and justify the costs of an emergency.
